

Concussion Procedure and Protocol

Concussion: a traumatic brain injury that interferes with normal brain function. Medically, a concussion is a complex, pathophysiological event to the brain that is induced by trauma.

CONCUSSION SYMPTOMS AND MANAGEMENT AT COMPETITIONS AND TRAINING

Step 1:

Did a concussion occur?

Evaluate the player and note if any of the following symptoms are present:

- (1) Dazed look or confusion about what happened.
- (2) Memory difficulties.
- (3) Neck pain, headaches, nausea, vomiting, double vision, blurriness, ringing noise or sensitive to sounds.
- (4) Short attention span. Can't keep focused.
- (5) Slow reaction time, slurred speech, bodily movements are lagging, fatigue, and slowly answers questions or has difficulty answering questions.
- (6) Abnormal physical and/or mental behavior.
- (7) Coordination skills are behind, ex: balancing, dizziness, clumsiness, reaction time.

Step 2:

Is emergency treatment needed?

This would include the following scenarios:

- (1) Spine or neck injury.
- (2) Behavior patterns change.
- (3) Loss of consciousness.

Step 3:

If a possible concussion occurred, but no emergency treatment is needed, what should be done now?

Focus on these areas every 5-10 min for the next 1 - 2 hours, without returning to any activities:

- (1) Balance.
- (2) Speech.
- (3) Memory.
- (4) Attention on topics, details.

Step 4:

Players should not re-enter competition, training, or partake in any activities for at least 24 hours. Even if there are no symptoms after 15-20 min, activity should not be taken by the player.

Step 5:

A player diagnosed with a possible concussion may return to US Youth Soccer play only after release from a licensed medical doctor specializing in concussion treatment and management.

Step 6:

If there is a possibility of a concussion, do the following:

- (1) The attached Concussion Notification Form is to be filled out in duplicate and signed by a team official of the player's team.
- (2) If the player is able to do so, have the player sign and date the Form. If the player is not able to sign, note on the player's signature line "unavailable".
- (3) If a parent of the player is present, have the parent/legal guardian sign and date the Form, and give the parent one of the copies of the completed Form. If the parent/legal guardian is not present, then the team official is responsible for notifying the parent/legal guardian ASAP by phone or email and then submitting the Form to the parent/legal guardian by email or mail. When the parent/legal guardian is not present, the team official must make a record of how and when the parent/legal guardian was notified. The notification will include a request for the parent/legal guardian to provide confirmation and completion of the Concussion Notification Form whether in writing or electronically.
- (4) The team official must also get the player's pass from the referee, and attach it to the copy of the Form retained by the team.

Possible Concussion Notification

Today, _____, 2_____, at the _____, _____ received a possible concussion during practice or games. TP Bobcats want to make you aware of this possibility and symptoms that may arise which may require further evaluation and/or treatment.

If your daughter/son starts to show signs of these symptoms, or there any other symptoms you notice about the behavior or conduct of your daughter/son, you should consider seeking immediate medical attention:

- Memory difficulties
- Neck pain
- Delicate to light or noise
- Headaches
- Odd behavior
- Repeats the same answer or question
- Vomiting
- Fatigued
- Irregular sleep
- Slow reactions
- Focus issues
- Patterns

Please take the necessary precautions and consider seeking a professional medical opinion before allowing your daughter or son to participate further. Until a professional medical opinion is provided, please consider the following guidelines:

- refraining from participation in any activities the day of, and the day after, the occurrence.
- refraining from taking any medicine unless (1) current medicine, prescribed or authorized, is permitted to be continued to be taken, and (2) any other medicine is prescribed by a licensed health care professional.

If you are unclear and have questions about the above symptoms, please contact a licensed health care professional. Please be advised that a player who suffers a concussion may not return to play until there is provided a signed clearance from a licensed medical doctor who specializes in concussion treatment and management.
